PROSPER GOLD CORP.

Notes to the Financial Statements

For the six months ended April 30, 2017 and 2016

(Expressed in Canadian Dollars)

(Unaudited)

1. Nature of operations and going concern

Prosper Gold Corp. ("Prosper" or the "Company") was incorporated under the *Business Corporations Act* (Ontario) on October 11, 2007, continued into British Columbia under the *Business Corporations Act* (British Columbia) and changed its name from Lander Energy Corporation on April 26, 2012. The registered office of the Company is located at 468 B Reid Street, Quesnel, British Columbia, V2J 2M6. Effective September 3, 2013, the Company's common shares are listed on the TSX Venture Exchange (the "Exchange"), trading under the symbol "PGX" upon completion of its Qualifying Transaction on August 30, 2013. Prior to September 3, 2013, the Company was classified as a capital pool company ("CPC") as defined under Policy 2.4 of the Exchange, and trading on the NEX board of the Exchange under the symbol "PGX-H".

The principal business activity of the Company is the acquisition, exploration and development of mineral properties. These financial statements have been prepared on a going concern basis, which assumes that the Company will continue in operation in the foreseeable future and will be able to realize its assets and settle its liabilities in the normal course of business. The Company has not yet generated any revenues, has incurred losses and negative cash flows from operations since inception and has a deficit of \$10,648,405 as at April 30, 2017 (October 31, 2016 - \$9,256,336). At April 30, 2017, the Company had cash of \$1,793,571 (October 31, 2016 - \$1,280,910) and working capital of \$1,447,855 (October 31, 2016 - \$1,244,163). The ability of the Company to continue as a going concern over a longer term is dependent on the Company's ability to complete financing to meet administrative overhead and to complete the exploration and development of its mineral property interests, or attainment of profitable mining operations or the receipt of proceeds from the disposition of its mineral property interests. However, there is no guarantee that the Company will establish economically recoverable reserves, profitable operations or positive cash flows from operations. The Company will continue to raise funding through equity financing to continue operations and has been successful to date, but there can be no assurance that adequate financing will be available in the future, or available on terms acceptable to the Company and, therefore, a material uncertainty exists that casts significant doubt over the Company's ability to continue as a going concern.

2. Basis of preparation

(a) Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards 34, Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB"). Accordingly, these condensed interim financial statements do not include all the information and disclosures required by International Financial Reporting Standards ("IFRS") for annual financial statements, and should be read in conjunction with the Company's audited financial statements for the year ended October 31, 2016, which have been prepared in accordance with IFRS.

(b) Basis of presentation

These financial statements have been prepared on a historical cost basis, except for certain financial instruments, which are recorded at fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The Company's interim results are not necessarily indicative of its results for the full year.

(c) Presentation and functional currency

The presentation and functional currency of the Company is the Canadian dollar. All amounts in these financial statements are expressed in Canadian dollars, unless otherwise indicated.

2. Basis of preparation (continued)

(d) Critical accounting judgments and estimates

The preparation of financial statements in accordance with IFRS requires management to make certain critical accounting estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the accompanying disclosures. Actual results could differ from these judgments and estimates. Estimates and underlying assumptions are reviewed on an ongoing basis based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The impacts of changes to estimates are recognized in the period estimates are revised and in future periods affected. The critical judgment and assumptions applied in the preparation of these condensed interim financial statements and other major sources of measurement uncertainty are consistent with those applied and disclosed in the Company's audited financial statements for the year ended October 31, 2016.

3. Significant accounting policies

The significant accounting policies applied in the preparation of these condensed interim financial statements are consistent with those applied and disclosed in the Company's audited financial statements for the year ended October 31, 2016.

4. Accounting standards not yet effective

Accounting standard effective November 1, 2018

IFRS 9 Financial Instruments

Issued by IASB - July 2014

Effective for annual periods beginning on or after November 1, 2018

IFRS 9 will replace IAS 39 *Financial Instruments: Recognition and Measurement* and IFRIC 9 *Reassessment of Embedded Derivatives*. The final version of this new standard supersedes the requirements of earlier versions of IFRS 9. However, for annual periods beginning before January 1, 2018, an entity may elect to apply those earlier versions instead of applying the final version of this new standard if its initial application date is before February 1, 2015.

The Company is currently assessing the impact of the application of IFRS 9 on the Company's financial statements.

IFRS 16 Leases

Issued by IASB - January 2016

Effective for annual periods beginning on or after November 1, 2019

Earlier application permitted for entities that also apply IFRS 15 *Revenue from Contracts with Customers*.

This new standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both the lessee and the lessor. The new standard introduces a single lessee accounting model that requires the recognition of all assets and liabilities arising from a lease.

The Company is currently assessing the impact of the application of IFRS 16 on the Company's financial statements.

Disclosure Initiative (Amendments to IAS 7 Statement of Cash Flows)

Issued by IASB January 2016

Effective for annual periods beginning on or after January 1, 2017

The amendments require entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities.

The Company is currently assessing the impact of the amendments to IAS 7 on the Company's financial statements.

Upon the Company acquiring a 75% interest in the Alexandria properties, the Company and Alexandria will enter into a joint venture for the exploration and development of the Alexandria property. The Company may elect to exercise the First Alexandria Option to only one of the claims within 60 months of the Alexandria Effective Date by issuing an additional 125,000 shares to Alexandria.

Subject to the First Alexandria Option, Alexandria grants the Company the exclusive irrevocable right and option to acquire an additional 15% interest ("Second Alexandria Option") upon the delivery of and acceptance by Alexandria of a resource estimate report that delineates a minimum of 1,500,000 ounces of gold on the property.

The Company issued the 100,000 common shares (note 9(c)) at a price of \$0.26 per share and paid \$50,000 for the acquisition.

(b) Star Property, British Columbia, Canada

Pursuant to an option agreement dated July 15, 2013 between the Company and Firesteel Resources Inc. ("Firesteel") (the "Option Agreement"), the Company has the exclusive option to earn up to an 80% interest in 19 mining claims on the Star property (formerly the Sheslay property), a copper-gold discovery located northwest of Telegraph Creek, British Columbia, in the Stikine Arch area of northwestern British Columbia, in exchange for cash payments, the issuance of common shares and exploration expenditures over four years as follows:

Pursuant to the option agreement (the "First Option"), the Company has earned a 51% interest in the Star property by:

- Making cash payments to Firesteel totalling \$300,000 over 18 months (paid);
- Issuing a total of 300,000 Prosper common shares to Firesteel (issued); and
- Incurring exploration expenditures totalling \$1,000,000 over 18 months (incurred).

The Company has an additional option (the "Second Option") to earn an additional 19% interest, thereby increasing its total interest in the Property to 70%, which may be exercised by:

(b) Star Property, British Columbia, Canada (continued)

The Company has an additional option (the "Third Option") to earn an additional 10% interest, thereby increasing its total interest in the Property to 80%, which may be exercised by:

- Making cash payments to Firesteel totalling \$500,000 over 48 months (due by August 30, 2017);

Rather than making the Second Option payment and issuance of common shares due by August 30, 2016 and the Third Option payment and issuance of common shares due by August 30, 2017, the Company and Firesteel entered into a joint venture agreement on August 30, 2016. The Company holds 51% ownership of the Star Property. The joint venture agreement specifies that the Company and Firesteel will contribute funds to continue explorations on the Star Property pro-rata, based on their percentage of ownership; 51% to be contributed by Prosper and 49% to be contributed by Firesteel.

(b) Stock options (continued)

The total fair value of the incentive options was calculated using the Black-Scholes option pricing model with the following weighted average assumptions and inputs:

	April 30, 2017	April 30, 2016
Risk-free interest rate	0.79%	0.66%
Expected volatility	110%	118%
Expected life	2.80 years	3.06 years
Expected dividend yield	-	-
Share price	\$ 0.26	\$ 0.21
Exercise price	\$ 0.26	\$ 0.20
Expected forfeitures	0.00%	0.00%

Expected stock price volatility was derived from an average volatility based on historical movements in the closing prices of comparable companies' stock for a length of time equal to the expected life of the options.

Companies are required to utilize an estimated forfeiture rate when calculating the expense for the reporting period. Based on the best estimate, management applied the estimated forfeiture rate of 0.00% in determining the expense recorded in the accompanying statements of comprehensive loss.

The fair value of the incentive options during the 6 months ended April 30, 2017 of \$157,506 (6 months ended April 30, 2016 - \$28,246) was recognized as share-based payments. The balance consists of \$127,845 (April 30, 2016 - \$12,958) to directors and officers, \$26,191 (April 30, 2016 - \$nil) to employees and \$3,470 (April 30, 2016 - \$15,288) to consultants.

10. Financial instruments

The Company's financial instruments consist of cash, amounts receivable (other than GST receivable), deposit, reclamation deposit and accounts payable and accrued liabilities. The Company's cash, amounts receivable (other than GST receivable) and deposit are classified as loans and receivables; and the reclamation deposit is classified as held-to-maturity. The Company's accounts payable and accrued liabilities are classified as other financial liabilities.

The fair values of the Company's cash, amounts receivable (other than GST receivable), deposit and accounts payable and accrued liabilities approximate their carrying amounts due to the short-term maturities of these instruments.

The Company's financial instruments are exposed to certain financial risks, including credit risk, liquidity risk, interest rate risk and foreign currency risk.

(a) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The Company considers its exposure to credit risk to be low, as its cash, deposit and reclamation deposit are deposited with a large financial institution with a strong credit rating. Amounts receivable consists of GST receivable and credits on vendor payable balances.

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet obligations associated with its financial instruments. The Company manages liquidity risk by maintaining adequate cash and managing its capital. At April 30, 2017, the Company had accounts payable and accrued liabilities of \$443,327 (October 31, 2016 - \$317,860) due within one year, and cash of \$1,793,571 (October 31, 2016 - \$1,280,910).

(c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Floating interest earned on the Company's cash balances are considered to be at market interest rates. The deposit of \$31,318 (October 31, 2016 - \$35,296) earns no interest and is deposited with a major bank for the Company's corporate credit card. Assuming that all variables remain constant, a change representing a 1% increase or decrease in the interest rate would not have a significant effect for the Company.

(d) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities are denominated in foreign currency. At April 30, 2017, the Company's monetary assets and liabilities are primarily denominated in Canadian dollars.

There has been no change to the Company's approach to risk management during the period ended April 30, 2017.
